PROFILE

 I bring strong analytical and problem-solving skills from my project management experience, enabling me to tackle complex challenges with a strategic and technical approach. I am passionate about combining my entrepreneurial mindset with technical skills to create impactful, scalable solutions.

SKILLS

Technical: HTML, CSS, JavaScript, Node, React, Express, MySQL, Agile, MUI, Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, GitHub, Jest, Agile Methodology, Jira, MS Excel, notion, Figma.

Business: Project Management, Financial Planning, Business Strategy, Digital Marketing, Client Relations, Process Optimization.

CERTIFICATIONS

Business Analytics with Excel (John Hopkins University)
How to create a Jira SCRUM project (Coursera)

EDUCATION

BrainStation | Diploma, Software Engineering , 2024

Toronto Metropolitan University | MEIE, Master Of Engineering Innovation and Entrepreneurship , 2022

Azad University | BSc, Biomedical Engineering , 2017

EXPERIENCE

Software Developer | Ada Tech

JAN 2024 - Present

- Designed and developed responsive websites and web applications tailored to small business needs.
- Built user-friendly interfaces and implemented backend solutions using React, Node.js, and MySQL.
- Collaborated in daily stand-ups and utilized Git for efficient version control and team coordination.

Advisor | RBC

AUG 2022 - JAN 2024

- Managed communications with mortgage specialists, financial advisors, and investment planners, ensuring timely and accurate information exchange.
- Developed and presented weekly performance reports, increasing efficiency in decision-making and contributing to sales growth.
- Enhanced client satisfaction by leveraging technology to provide tailored financial advice and personalized solutions.

Operations Coordinator | Tradeopia

JAN 2014 - APR 2016

- Led daily product distribution for 20 retail outlets, improving on-time delivery performance.
- Optimized associate scheduling and operations calendar, boosting productivity by reducing downtime.
- Facilitated communication with store managers to streamline supply chain processes, increasing operational agility.

Business Development Specialist | Baran Clinic

DEC 2018 - JAN 2021

- Supported project coordination and operations, improving efficiency and enhancing customer satisfaction.
- Oversaw budgeting and financial planning, ensuring accurate allocation and management of resources.
- Initiated innovative marketing strategies, expanding the client base significantly within the first two years.

PROJECT

Full Stack Developer | InStock

An inventory management system using React, Node.js, Express, and MySQL. Designed the UI using Figma and deployed the application via Heroku and Netlify.

Full Stack Developer | MedPass

A responsive app with React, MUI, JWT, bcrypt, and Geocoding API, enabling patient management and location-based searches.

Full Stack Developer | Fact Checker

META 24-Hour Hackathon: AI-powered tool integrated directly into each post on Instagram and Facebook, increase engagement, and build trust in AI technologies
